OBJECTIVE

Passionate and result-driven **java developer** skilled in **Core Java**, **Spring Boot**, **React, Spring Data JPA**, and **MySQL.** Strong in debugging, communication, and seeking opportunities to contribute to impactful projects as a backend developer.

EDUCATION

Bachelor of Technology in Computer Science	**2021-2025**

Prestige Institute of Management and Research[Bhopal, Madhay Pradesh],CGPA**:** 7.24/10

Senior Secondary Education (XII), Science	**2020-2021**

Govenment Higher Secondary School,[Balaghat, Madhya Predesh], Percentage**:** 85%

Senior Secondary Education (X)	**2018-2019**

Indira Vidhya Pith High School,[Garra, Balaghat,Madhya Pradesh], Percentage: 84.80%

TECHNICAL SKILLS

- **Langueges:** Java, JavaScript
- **Web & Frontend:** HTML**,** CSS, JavaScript, ReactJs
- **Backend Frameworks:** Spring Boot, React.js, Spring Data JPA, Spring Security, Tailwind
- **Databases:** MySQL
- **Tools:** Git, Github, Postman, VS Code, Intellij, Eclipse, Rest APIs
- **Soft Skills:** Adaptability, Problem Solving, Teamwork

PROJECTS

E-Commerce Online Platform

- Developed an e-commerce platform using **Java**, **Spring Boot**, **Rest APIs**, **React.js**, **Tailwind** and **MySQL.**
- Implemented user authentication with secure **JWT-based access,** ensuring data protection for 500+ users.
- Built core features including product listing, shopping cart, and order management.

Real-Time Chat App

- Developed a real-time chat application using **Java**, **Spring Boot**, **WebSocket**, **HTML**, **CSS**, **JavaScript** and **MySQL**.
- Implemented live messaging and real-time data exchange with message persistence.

Weather Application

- Developed a dynamic web application to display real-time weather conditions.
- Built using Java, Servlet, JSP, HTML, CSS, and a Weather API for live data fetching.

INTERSHIP

- **Java Developer Intern** - **Integration IT Private Limited**   (*Oct 2024 - Dec 2024*)
  Worked on Java-based applications using Core Java and Spring Boot. Used MySQL and JDBC   for database operations and data handling.Assisted in debugging, testing, and improving backend performance while collaborating with the development team.

CERTIFICATION

- Udemy Certification Java Master Classes

ACHIEVEMENTS

- Solved 300+ algorithmic problems across GeeksforGeeks (GFG), HackerRank strengthening problem-solving and competitive programming skills.
